

FOR IMMEDIATE RELEASE

Adventist Health Hong Kong and Stryker Sign Memorandum of Understanding to Advance Robotic Assisted Orthopedic Surgery in Hong Kong

[HONG KONG, 15 October 2026] – Adventist Health Hong Kong has announced the signing of a Memorandum of Understanding (MOU) with Stryker in Hong Kong SAR, a global leader in medical technologies. The agreement establishes a strategic framework to deepen collaboration in robotic-assisted orthopedic surgery, reinforcing Adventist Health Hong Kong's commitment to expanding its robotic surgery capabilities and driving innovation across its clinical network.

Under the MOU, both organizations will explore joint initiatives in research, education, and clinical excellence, leveraging the existing Mako robotic-arm assisted surgical system at Adventist Health Hong Kong. Key areas of focus include supporting orthopedic research projects, establishing an Education Center or Center of Excellence, advancing surgeon training and proctorship, and utilizing clinical data to refine surgical protocols and improve patient outcomes.

"We are pleased to formalize our intention to explore this strategic collaboration with Stryker," said **Andy Cen, Chief Operating Officer of Adventist Health Hong Kong**. "This MOU represents a significant step forward in our ongoing commitment to integrating advanced technology into patient care. By combining our clinical expertise with Stryker's innovation in robotics, we aim to elevate surgical precision, enhance training standards, and ultimately deliver better outcomes for our patients."

Dr. Cheung Man Hong, Chief Medical Executive of Adventist Health Robotic Surgery Center, added: "This collaboration marks an important step in advancing orthopedic care in Hong Kong. We view surgeon training and knowledge exchange as essential to sustainable clinical progress – not only for our institution but for the wider regional medical community. Robotic-assisted technology enables greater precision and consistency in surgical procedures, contributing to more predictable outcomes and enhanced patient safety. Looking ahead, we envision a future where data-driven planning, advanced technology, and continuous professional development together redefine the standard of care in orthopedics."

The collaboration aligns with Adventist Health Hong Kong's broader strategic direction in robotic surgery, which includes the recent expansion of its Robotic Surgery Center in Central and the continuous integration of cutting-edge technologies across its hospital network. The partnership with Stryker is expected to accelerate the adoption of data-driven, technology-enabled care models, with a particular focus on digital expansion and the use of CT-based data to personalize treatment protocols.

"At Stryker, we are committed to advancing healthcare through innovation, education, and strategic partnerships," said **Erik Ramp, Managing Director, Hong Kong SAR & Taiwan, Province of China**. "We are proud to collaborate with Adventist Health Hong Kong to advance robotic-assisted orthopaedic care through our Mako SmartRobotics® platform. Together, we aim to combine advanced technology, data-driven insights, and

surgeon education to help deliver more personalized care and support the continued evolution of orthopaedic surgery in Hong Kong. This partnership represents a shared

vision for leveraging technology and clinical expertise to improve outcomes for patients and healthcare systems alike."

About Adventist Health Hong Kong

Rooted in Hong Kong for over half a century, Adventist Health Hong Kong is part of the global healthcare network of the Seventh-day Adventist Church, which operates over 244 hospitals/sanatoriums and 1,840 medical institutions worldwide. In Hong Kong, Adventist Health Hong Kong operates hospitals at Stubbs Road and Tsuen Wan, medical centers in Causeway Bay and Taikoo Place, and a Robotic Surgery Center in Central, collectively offering nearly 450 hospital beds and over 40 specialty services. Adventist Health upholds its mission of "Extending the Healing Ministry of Christ" by delivering professional, high-quality, one-

stop healthcare services. Additionally, the hospitals operate charitable funds, showing their dedication to the community by providing medical support to individuals with financial difficulties. Through various subsidy programs, Adventist Health continues to bring care and compassion into the community.

About Stryker

Stryker is a global leader in medical technologies and, together with its customers, is driven to make healthcare better. Stryker offers innovative products and services in MedSurg, Neurotechnology and Orthopaedics that help improve patient and healthcare outcomes. Alongside its customers around the world, Stryker impacts more than 150 million patients annually. More information is available at www.stryker.com.
