

Adventist Health Robotic Surgery Center – Key Features 港安機械臂外科中心特色

Robotic Minimally Invasive Surgery. Precise & Reassuring 微創機械臂輔助 · 精準更安心

Precision medicine is the future, and minimally invasive robotic assistance is at its core. Technological advances offer patients more choices, better safety, and faster recovery. Robotic systems enable surgeons to perform highly delicate, complex surgeries with less trauma and bleeding – leading to shorter recovery and better outcomes.

精準治療成大勢所趨，微創機械臂輔助更為關鍵。醫療科技進步讓患者有更多選擇，安全性和術後恢復也大幅提升。機械臂輔助下，外科醫生能進行更精細、高難度的手術，減少創傷與出血，縮短恢復時間，提升手術成效。

Prime Location – Convenient Access 核心地段 · 便利就診

The Adventist Health Robotic Surgery Center is located in the heart of Central, with excellent transport links. Our multidisciplinary team of specialists (Orthopedics, Urology, General Surgery, Neurosurgery etc) provides professional outpatient assessments and personalized surgical planning.

港安機械臂外科中心設於中環核心地段，交通網絡四通八達。跨專科醫生團隊（骨科、泌尿外科、外科、神經外科等）提供專業門診評估，策劃個人化手術方案。

How to Get to Adventist Health Robotic Surgery Center 如何前往港安機械臂外科中心

Business Hours 營業時間	Monday - Friday 星期一至星期五 09:30 - 18:30	Saturday, Sunday & Public Holiday 星期六、星期日及公眾假期 Closed 休息
Address 地址	Room 2202B, 22/F, New World Tower I, 16-18 Queen's Road Central, Hong Kong 香港中環皇后大道中16-18號 新世界大廈一座22樓2202B室	
Tel 電話	3468 8208	Fax 傳真 3468 8203

Full-Support Services at HKAH-SR and HKAH-TW 香港港安及荃灣港安全面配套

Pre-operative assessment | Diagnostic imaging | Advanced robotic surgery | Nursing collaboration | Post-operative rehabilitation – a dedicated team providing comprehensive support at every step.

術前評估 | 影像診斷 | 先進手術 | 護理協作 | 術後康復 – 專業團隊全程護航

**Precision, Innovation, and
Compassionate Care**

精確 · 創新 · 守護

Adventist Health Hong Kong (AHHK) has pioneered robotic-assisted surgery in Hong Kong since as early as 2013. With more than a decade of clinical expertise, AHHK has built a solid and reputable standing in the field for advancing surgical precision, innovation, and patient care – with a strong emphasis on minimally invasive surgery – thereby enabling patients to achieve more ideal treatment outcomes.

In 2024, Hong Kong Adventist Hospital – Stubbs Road officially established its Robotic Surgery Center, marking a significant milestone in the advancement of robotic-assisted minimally invasive surgery. At the same time, Hong Kong Adventist Hospital – Tsuen Wan also introduced advanced robotic systems, continuously enhancing surgical outcomes and actively driving the progress of robotic minimally invasive surgery.

In 2026, AHHK proudly opened the “**Adventist Health Robotic Surgery Center**” in the heart of Central’s core business district, becoming the first robotic outpatient center in Hong Kong. The center covers multiple specialties including Orthopedics, Urology, General Surgery, Neurosurgery and others, offering patients a truly convenient and premium healthcare experience – all while prioritizing minimally invasive techniques for faster recovery and better outcomes.

港安醫療自2013年起積極發展機械臂輔助手術，薈萃逾十年臨床經驗，以微創精確技術、創新技術與細心照護，建立了良好的專業口碑，令病人達致更理想的治療效果。

2024年，香港港安醫院 – 司徒拔道正式成立機械臂外科中心，專注發展微創機械臂手術，樹立機械臂手術發展的重要里程碑。與此同時，香港港安醫院 – 荃灣亦相繼引入先進機械臂系統，持續提升手術成效，積極引領微創機械臂手術的發展進程。

踏入2026年，港安醫療於中環核心商業區開設「**港安機械臂外科中心**」，成為全港首間機械臂門診中心，涵蓋骨科、泌尿外科、外科、神經外科等多個專科，秉承微創理念，為患者帶來便捷而優質的醫療體驗。

World-Class Robotic Systems. Exceptional Patient Outcomes 頂尖機械臂手術系統 · 成就卓越療效

The center is equipped with the largest fleet of robotic surgical systems among private hospitals in Hong Kong. In response to ongoing clinical needs and technological advancements, AHHK continues to invest in and introduce world-class systems, including:
中心配備全港私家醫院中規模最大的機械臂手術系統陣容，為持續回應臨床需求與技術演進，港安醫療不斷投放資源，引進多款頂尖系統，包括：

International-Class State-of-the-Art Robotic Systems 國際級尖端機械臂系統

da Vinci 5

Key Features
特色

The 1st hospital in Greater China to introduce the 5th generation da Vinci surgical system.
The 5th generation da Vinci system builds on the 4th generation’s minimally invasive and oncological platform, adds FDA-cleared for cardiac surgery, delivers 10,000x greater computing power, and integrates advanced AI.

大中華區首部第五代達文西手術系統

第五代達文西手術系統在第四代專為微創及腫瘤手術而設的機械臂平台基礎上，進一步獲美國食品藥物管理局許可用於心臟手術，運算能力較上一代提升一萬倍，可整合先進的人工智能技術

da Vinci Xi

A 4th generation robotic platform designed for minimally invasive and oncologic surgeries, applied in procedures involving the prostate, colorectal, stomach, liver, pancreas, and bile duct.

第四代機械臂平台專為微創及腫瘤手術而設，應用於前列腺、結直腸、胃、肝、胰及膽管等手術

ExcelsiusGPS®

Hong Kong’s 1st robotic system targeting the entire spine.

全港首部針對全脊椎手術的機械臂系統

ROSA®

The hospital is the 1st private hospital in Hong Kong to perform ROSA surgery.

A robotic system used for total knee replacement.

全港首間進行ROSA手術的私家醫院用於全膝關節置換的機械臂輔助手術

Mako SmartRobotics™

Hong Kong first CT-based Robotic-assisted surgery since 2012, applied to Total Hip, Total Knee and Partial Knee Replacement.

香港首部結合電腦斷層導航的機械臂輔助手術系統自2012年起投入服務，應用範圍涵蓋全髖、全膝及局部膝關節置換手術。

Hugo™ RAS System

A robotic platform for surgeries in Urology, General Surgery, and Gynecology.

適用於泌尿外科、外科及婦科的手術

These cutting-edge technologies are widely applied across
這些尖端技術廣泛應用於
