

## Press Release

### Hong Kong Adventist Hospital Collaborates with Foshan Fosun Chancheng Hospital and Shenzhen Hengsheng Hospital

**Hong Kong, November 13, 2024** – At this year's China International Import Expo, Hong Kong Adventist Hospital officially held a plaque unveiling ceremony for its collaboration with Foshan Fosun Chancheng Hospital and Shenzhen Hengsheng Hospital. This partnership signifies further integration of healthcare services, specialized treatments, and personnel exchange among hospitals in the Greater Bay Area, thereby enhancing the interconnectedness of medical services across the two regions.

Hong Kong Adventist Hospital expresses strong confidence in the prospects of the Greater Bay Area healthcare market and is dedicated to building a long-term collaborative relationship with Fosun Health Group. Experts from both sides will regularly form multi-disciplinary teams to share clinical cases and research outcomes, as well as provide professional training for frontline healthcare personnel to elevate overall medical standards. Key areas of collaboration include:

- Deepening collaboration in core medical service areas such as cardiology, orthopedics, spine, IVF reproductive medicine, pediatrics, and child development centers, with further expansion into integrative traditional Chinese and Western medicine.
- Establishing professional training programs to enhance the skills and service levels of healthcare professionals in response to the increasing demand for medical services in the region.
- Exploring the use of emerging technologies such as artificial intelligence and telemedicine to improve patient diagnosis and treatment processes and enhance the efficiency of medical services.
- Promoting health information sharing in the Greater Bay Area and facilitating the exchange and training of medical talent between the two regions.
- Conducting joint research projects aimed at improving the quality of medical services and the development of innovative technologies.

This knowledge exchange will not only promote the professional development of healthcare personnel but also further enhance our medical service capabilities. Our collaboration will align with national policies, support medical development in the Greater Bay Area, and aim to promote closer medical exchanges, establishing mutually beneficial relationships to jointly enhance patient satisfaction and health levels.

Since 2019, doctors and nurses from 12 different hospitals in Guangdong Province have successfully completed our training courses, receiving professional certifications in Basic Life Support, Advanced Cardiovascular Life Support, and Pediatric Advanced Life Support from the American Heart Association (AHA). We hope to further develop these training programs through our collaboration with Fosun, promoting cooperation and knowledge exchange to comprehensively enhance medical and pathological expertise in the Greater Bay Area and better serve patients.

This strategic partnership represents not only the integration of both parties' resources and expertise but also a significant commitment to the future of healthcare services in the Greater Bay Area. Hong Kong Adventist Hospital and Fosun Health will work together to provide patients with more comprehensive, efficient, and personalized medical services.
